EXPERIENCE AN AMAZING COOL NIGHTS TOUCH ON THE MEDICOIL ICE

The Medicoil Ice mattress was created to help provide a cool and comfortable sleeping environment. With the technology of Gel infused memory foam to help regulate your body temperature together with Graphite memory foam for high breathability, these technologies make a high performance product.

With innovative Cool-To-Touch technology, SensIce textiles are hyper-conductive which helps take away the heat instantly on its surface. Resulting in a comfortable cool nights sleep.

Major Features

- 1 SensIce fabric - helps to regulate body temperature and keep you cool
- 2 Quilted top - Features gel infused memory foam and Australian Wool for extra breathability and comfort
- 3 Graphite memory Foam - This Ultra-fresh treated foam, creates the ultimate sleep experience combining a highly breathable sleep platform that helps disperse heat away evenly by creating a cool breathable surface for a good night's rest
- 4 High Density Foam - Premium High Density Foams for extra comfort
- 5 Pocket Springs - 5 zone pocket springs with side edge support
- 6 Vents - Provides breathability and airflow
