

# Mattress Resources

Australian-made mattresses, custom-built for schools.

# Better Sleep. Better Learning.

Quality sleep drives academic performance. Our mattresses help students wake refreshed, focused and ready to learn, night after night, year after year. For over 50 years, **Mattress Resources Australia** has manufactured premium bedding in Brendale, Queensland.

*Custom-built for student life.*

**Customisation.** Add your school crest or house colours to every mattress. Reinforces identity, deters theft, and presents beautifully on open days and tours.

**Durability** high-density foams. Reinforced edges and stitching. Built to resist sagging across many students, over many years.

**Well-being** antimicrobial foams resist bacteria, mould and bed bugs. Gel-infused materials regulate temperature. Bamboo knit fabric is fire retardant treated for added safety.

**Comfort** zoned pocket springs and memory foam. Align growing spines and ease pressure points across single, long single, king single and double sizes.
